

## **Student Car Park Passes**

The panel deciding the allocation of car park passes has met and successful applicants will be contacted as soon as possible to let them know how to collect their passes. This year we have a high number of students with medical needs, caring responsibilities and/or financial hardship. We have applied a fair and rigorous process to decide the highest level of need. May we remind successful applicants that we can only guarantee the passes for the first term due to the possibility of building work taking place in the car park in terms 2 and 3.
